This very new documentary asks; what is China? How ancient Chinese principles help explain the preservation, power and problems of modern China.

中国とは何なのか？そして、古代中国の原理と現代中国の維持、権力、問題の関わりについてこのドキュメンタリーで問いかけます。

The Storyline of the Film (Content)

The world's most populous country, an economy set to become the biggest in the world, a communist state, a developing nation, the world's oldest surviving civilization at the cutting edge of a technological revolution, an authoritarian regime brutally suppressing its minority groups - China is many things to many people, but running through its core, like a continuous silk thread, is one central principle: order.

To understand China today and China tomorrow, it is first to understand China of long ago.

You are welcome and free to join watching the documentary film.
